

StayHealthy Patient Report

Go Digital initiative - fictitious training record

Patient

Name: Amina El Fassi

Patient ID: SH-10482

Date of birth: 14 March 1992

Phone: +212 6 12 34 56 78

Email: amina.elfassi@example.com

Location: Rural clinic catchment, remote follow-up

Visit

Date: 23 September 2026

Clinician: Dr. Leila Benali, General practice

Visit type: Scheduled video consultation

Reason: Persistent sneezing, itchy eyes, and a runny nose for six days

Assessment

Mild seasonal allergic rhinitis. No fever, no shortness of breath, lungs clear.

Prescription

1. Cetirizine 10 mg tablet, once daily for 14 days
2. Fluticasone nasal spray, 2 sprays each nostril once daily for 7 days
3. Saline nasal rinse, twice daily as needed

Advice

Rest, fluids, and avoid outdoor dust when the wind is high.

Return for a follow-up if symptoms last more than two weeks or breathing worsens.
